BRITISH SHELL GERMAN LINES BEYOND POZIERES

Heavy Artillery At-
tack Promises Re-
newal of Advance
By Sir Douglas
Haig in Fight for
Bapaume.

Rumors of Naval
Combat Persist in
Spite of No Au-
thentic Reports.

Russian Advance
Continues.

(Associated Press Cable)
LONDON, JULY 27. — HEAVY
SHELLING OF THE GERMAN
LINES ON THE SOMME FRONT BY
BRITISH GUNS IS IN PROGRESS.
FOLLOWING THE SUCCESS OF
GENERAL SIR DOUGLAS HAIG IN
WINNING HIS HOLD UPON POZ-
IERES, POSSESSION OF WHICH
WAS NECESSARY TO A FURTHER
ADVANCE TOWARD BAPAUME,
HIS OBJECTIVE.

London today reports activity
throughout the night by the Brit-
ish artillery, apparently in prepara-
tion for a renewal of the attack.

Rumors that an important naval
action has occurred in Scandnav-
ian waters were met today by a
statement of the British admiralty
that it had no reports of any naval
activities in the region indicated.

Turkish claims to advantage over
the British in cavalry skirmishes
in Egypt, in the district east of the
Suez Canal, are denied in a report
from the British commander in
Egypt, who reports that he has the
situation well in hand.

The sinking in the North Sea by
German submarines of four Nor-
wegian vessels with cargoes of tim-
ber is announced from London,
which reports their destruction as
part of an energetic campaign start-
ed by the Germans against timber-
laden vessels in those waters.

Petrograd announces the capture
of a total of 6,250 prisoners by the
Russians in the fighting of Tues-
day, when the Teutonic lines were
pressed back in the Slonevka reg-
ion of Volhynia.

MAY ABANDON RESCUE WORK

Workers May Never
Be Able to Reach
Bodies of Entomb-
ed Men.

(Associated Press Dispatch.
Cleveland, O., July 27.—The pos-
sibility that the city may be com-
pelled to abandon not only the
search for the bodies of the work-
ers still entombed in the water-
works tunnel here as a result of
yesterday night's explosion, but all
other work on the tunnel itself.
was called off here today, as the result
of further investigation by L. M.

Jones, of Pittsburg, government
mine expert.

Possibility was seen, in Jones'
expressed belief, that a gas well of
uncontrollable proportions has been
uncovered under the bed of the lake
as the result of the tunnel explo-
sion.

If it is possible, rescue parties
will enter the tunnel today; but
the entombed bodies are behind a
cave-in nearly 300 feet long, and it
is feared the gas is so dense in the
tube that men will be unable to
stay in the tunnel long enough to
dig through the distance.

Special machinery will be needed
to penetrate the wall of mud which
hides the bodies. No more bodies
are expected to be found for a week
or more.

Waterworks officials said today
they believe there are only nine
bodies in the tunnel, instead of ele-
ven, as previously estimated, re-
ducing the total loss of life to nine-
teen.

The city's investigation into the
tragedy was to reach the stage of
examination of witnesses today.

STATE PROBES

Two state probes of the water-
works tunnel explosion at Cleve-
land were to begin today; one by
the State Inspector of Workshops
and Factories, and one by the State
Mine Inspection Bureau.

Investigators for both offices have
gone to Cleveland and will work
with federal inspectors.

TWENTIETH CHILD BORN

Columbus Parents
Break Records for
Large Family.

(By Associated Press Dispatch.
Columbus, O., July 27. — The
birth of the twentieth child to the
same father and mother was record-
ed today by Dr. Martin W. Bland,
State Registrar of Vital Statistics.

This is the first case on record in
Ohio where there have been twenty
births in one family.

The child, a girl, was born to
Mr. and Mrs. James F. Hess, of
Martins Ferry.

The mother of the child is 44
years old. Only eight of the twenty
children are living.

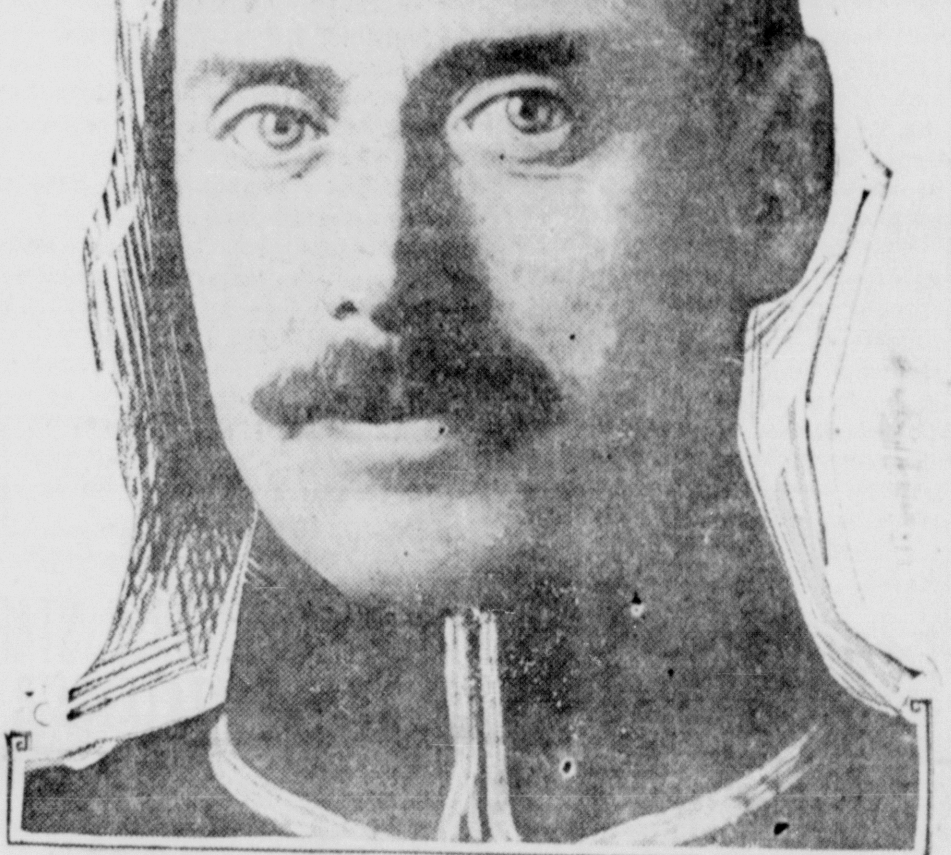

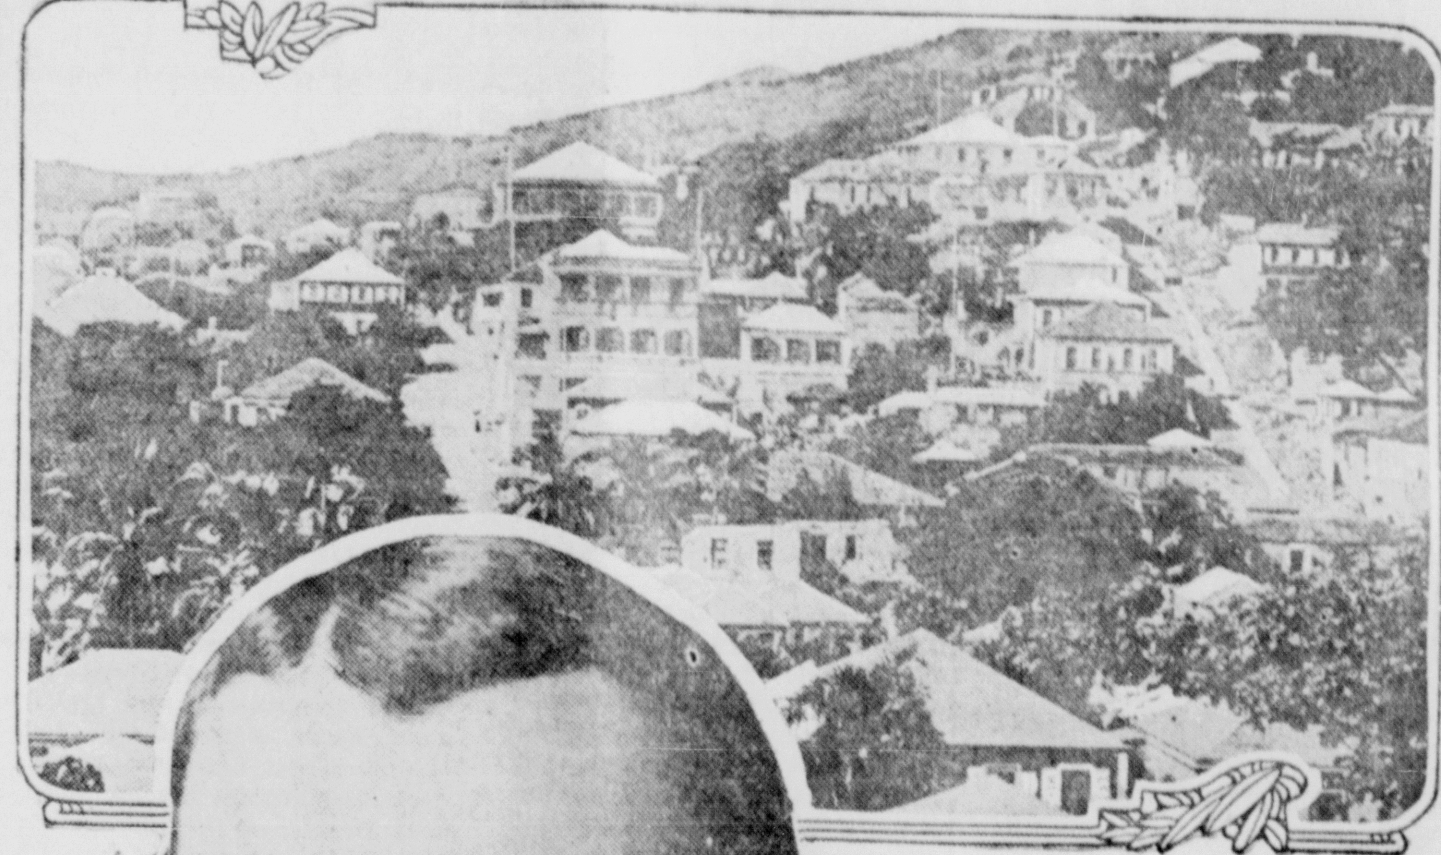

GENERAL TREVINO STILL ON THE JOB

(By Associated Press Dispatch.
Washington, July 27.—A tele-
gram to the Mexican Embassy from
General Carranza said General Tre-
vino had not been removed from
command in Chihuahua, and that
General Herrera still was his sub-
ordinate.

WELL! WELL!

(Associated Press Cable)
Paris, July 27. — Sir Ed-
ward Morris, Premier of New-
foundland, in an interview to-
day declared that the Ger-
mans are beginning to realize
that the war is practically
finished.

ACQUISITION OF THE DANISH WEST INDIES WILL GIVE US VALUABLE NAVAL STATIONS

St. Thomas, Danish West Indies,
and King Christian of Denmark.

A treaty for the purchase of the
Danish West Indies by the United

States has been negotiated between
the governments of the United
States and Denmark and in the near
future is to be submitted to the
senate of the United States and to

willing that the commissioners
should also investigate economic
and financial relations between the
two countries, with the hope of
finding means to aid Mexico in the
restoration of peace and order.

THE CHANCE OF AGREEING IS BRIGHTER

Acting Secretary Polk
Again Confers
With Mexican
Ambassador Arre-
dondo.

(By Associated Press Dispatch.
Washington, July 27 — Prospects
of an early agreement between the
American and Mexican Governments
to submit the border disagreement
to a joint commission were describ-
ed as brighter today, after acting
Secretary Polk again conferred with
Eliseo Arredondo, General Carranza's
ambassador.

The conferees found themselves
closer to an agreement on the sev-
eral points which delayed formal an-
nouncement that General Carranza's
suggestion for a commission would
be accepted.

The Washington Government
wants to widen the scope of the
commission's investigation beyond
General Carranza's suggestion that
it discuss the withdrawal of Ameri-
can troops; measures to protect the
American border interests from ban-
dits; and the origin of raids.
It was assumed that Mr. Arre-
dondo was able to assure Mr. Polk
today that his government was

the two houses of the Danish par-
liament for approval, it is an-
nounced. If the treaty is ratified as
it stands in "project" form the
United States will pay for the is-
lands \$25,000,000 and in addition
will relinquish to Denmark the
rights of the United States in Green-
land. Greenland is a Danish posses-
sion, and the rights which the
United States will abandon are
merely rights of discovery, the
scope of which is ill defined. The
United States will obtain from Den-
mark full possession of the islands
of St. Thomas, St. John and St.
Croix, or Santa Cruz, as it is better
known. These islands lie about fifty
miles off the coast of Porto Rico.
They are 142 square miles in area
and support a population of 27-
000 persons. Nearly all the inhab-
itants of the islands are negroes
who live by the cultivation of sugar
cane. The islands will be useful to
the United States as coaling stations
or naval stations. Many efforts have
been made in the past half century
or so to have the United States take
over the islands from Denmark.
Photos show St. Thomas and King
Christian of Denmark, who will cede
the islands to the United States.

(By Associated Press Dispatch.
Baltimore, July 27.—If Captain
Paul Koenig of the merchant subma-
rine Deutschland plans to start to-
day on the return voyage to Ger-
many, there was nothing going on
this morning at the pier where the
submarine is berthed that was any
more indicative of departure than
has been the case for the last few
days.

Overnight developments, in fact,
tend to increase the probability of a
report late last night that it had
been decided to hold the Deutsch-
land here until some word has been
received concerning her sister ship,

LOCAL MAN'S WAR BRIDE

Columbus Girl
Leaves Tuesday
Morning for San
Antonio.

(By Associated Press Dispatch.
Columbus, O., July 27.—The lat-
est war bride furnished by Colum-
bus is Miss Louise J. Morton, until
a few days ago employed as a sten-
ographer here.

She left Tuesday morning for
San Antonio, where she is to be
married to Dr. J. Edgar Rowan,
formerly of Washington C. H., now
a first lieutenant in the hospital
corps of the Illinois National Guard
stationed at Fort Sam Houston,
Texas.

Dr. Rowan left this city several
years ago and is a successful phys-
ician and surgeon of Chicago. He is
a brother to the Misses Lulu, Nel-
le and Naoma Rowan, and Frank
Rowan of this city, and will be
remembered by a large number of
Washingtonians who will unite in
extending the heartiest of good
wishes to Dr. Rowan and wife.

SCOUT CONFESSES

(By Associated Press Dispatch.
Columbus, N. M., July 27. — Guy
Johnson, United States Army scout,
who confessed to his captain here
yesterday that he was Guy Hart-
man, wanted at Fort Smith, Ark.,
for internal revenue fraud, commit-
ted during 1915, was taken to the
Santa Fe, New Mexico, penitentiary
today by a United States marshal.

OUT AGAIN

(By Associated Press Dispatch.
Washington, July 27. — Senator
Reed's amendment, voted into the
Army appropriation bill, to permit
National Guardsmen in the Federal
service to vote at their camp in the
coming presidential election, was
stricken out today on a point of
order.

COAL COMBINE IN ENGLAND

(Associated Press Cable)
London, July 27.—The greatest coal combine known to the United Kingdom has just been effected by Lord Rhondda better known to Americans as D. A. Thomas, the Welsh coal magnate. He has brought into the Cambrian Combine, of which he is managing director, between 3,500 and 4,000 acres of the richest portion of the South Wales coal fields belonging to D. Davis & Sons, Ltd. The deal involves the transfer of the collieries of the Welsh Navigation Steam Coal Company, Ltd., acquired three years ago by Davis & Sons for \$1,574,250. The combine places Lord Rhondda at the head of an organization with a capital of \$17,765,170.

Public interest has been so much concentrated in the war that, outside business and financial circles, practically no interest has been taken in the gigantic effect of the deal. It is that the Consolidation Cambrian Combine controls now all of the fields producing the renowned steam coal which has contributed so much to the supremacy of the British mercantile marine and which has been said to constitute the life of the British Navy. It is said that there is no coal in the world with a higher reputation for bunkering purposes, and that more record runs by ocean craft between New York and Liverpool have been made with this coal than with any other.

Details of the deal are not available, but it is understood that the market value of the shares of D. Davis & Sons, Ltd. have appreciated in value recently from \$7,678,125 to \$10,940,625.

The great combine will have an annual output of 6,000,000 tons.

BULGARIANS ARE SHOELESS

(Associated Press Cable)
Brene, Switzerland, July 27.—According to reports here, the Bulgarians and German have about a half million men ready for an attack upon Saloniki. The greatest difficulty the Bulgarians have had to contend with is the lack of shoes. A Swiss doctor just returned from Sofia says that fully half the Bulgarian forces are without shoes, which civilians also find with difficulty at prices running from eight dollars a pair upward.

Bulgaria, without shoe factories and tanneries, is also short of hides. The entire stock on hand has been distributed among the troops. The soldiers are cutting them up themselves and make a crude kind of sandal such as served as foot wear for 300,000 Bulgarian, Serbian and Turkish soldiers during the Balkan wars.

Tourists and military boots sell for \$28 to \$30 a pair when they are to be had. The government has advertised for leather, offering four dollars a pound, without avail.

RUSSO-JAPANESE TRADE INCREASE

(Associated Press Cable)
Tokio, July 27.—Charles Miller, a Russian financial agent, has arrived in Japan to arrange for the payment of war munition purchased here and to investigate and study the commercial and industrial conditions with a view to promoting Russo-Japanese trade. Mr. Miller predicts a steady increase in commerce between the two countries when the war is concluded. He said that the abolishment of the sale of vodka, while sacrificing a revenue of over 500 million rubles, has brought about an important improvement in the economic conditions of the Russian people and had greatly increased their purchasing powers.

FRENCH GOLD POURING IN

(Associated Press Cable)
Paris, July 27.—Exchanges of gold for paper at the Bank of France continue at the remarkably uniform rate of about six million francs per week. A committee has now been organized under the presidency of M. David-Mennet, president of the Paris Chamber of Commerce, to give greater impetus to the influx. The committee includes the presidents of all the chambers of commerce in France and the most authorized representatives of every branch of art, industry and business. The object of the committee is to co-operate with citizens in every locality in France in a systematic education of the people in the great advantages to the country in having all the gold in the Bank of France.

Missouri Girl Will Help Her Father's Campaign.
St. Louis.—When William C. Askin, a banker of Salem, Mo., announced his candidacy for the Republican nomination for secretary of state his daughter, Miss Bernice Wolcott Askin, was in New York. The news of her father's candidacy, however, brought her back to Missouri with the announcement that she will accompany him on his campaign with her violin.
"Father has done much to aid me in my musical education," said Miss Askin at the home of a friend in St. Louis, "and now that he wants to be secretary of state I am going to do all I can for him. I may accompany him over the state during his entire campaign. If I do I shall take my violin along and entertain the voters."

SHIP BUILDING ON THE BOOM

(Associated Press Cable)
London, July 27.—A new epoch in shipbuilding which has been inaugurated by the formation of a "Standardized Ship Construction Company" with a capital of \$1,500,000 had its inception from the United States whence the first suggestion of standardization emanated. The plans are provided for the construction at Chepstow of ten large ships at the same time, of a standardized type, 8,000 tons dead weight with a length of from 450 feet to 650 feet, while machinery will also be especially designed for producing standard parts of hulls and engines.

The scheme is backed by the leading shipping interests of Great Britain and the idea has been approved in shipping circles where the dearth of vessels is being badly felt. The craft to be built will be well suited for the South Wales ports, to carry coal out and bring back grain.

This preparation for current and after war needs will probably soon extend to an Empire shipbuilding development and in addition to one large British firm already engaged on shipbuilding in Canada, three others, Vickers, Cammell Laird and John Brown and Co. of Clydebank, are reported to be planning to start shipbuilding in that part of the empire. It is thought that these ideas or rumors if they come to fruition will in a large measure solve the difficulty of congestion of labor and output in many of the crowded areas of Great Britain, as the firms mentioned are sure to take a large number of workmen to their new yards.

The establishments of the standardized idea and the extension of shipbuilding to other parts of the Empire is necessary in view of the tremendous boom now in progress in neutral countries especially the United States, where it is thought the cost of production after the war will be very little less than here—labor charges in Great Britain being bound to rise after peace is declared.

BAND CONCERT FRIDAY NIGHT

The second of a series of open air band concerts will be given on the court house lawn Friday evening, beginning at eight o'clock, and as usual the public is invited and urged to attend.

The program presented will be entirely different from that of the last concert, and includes new and high class numbers.

BREMEN WANTS CRAIG FACTORY

Manufacturer C. L. Craig Has Offer But Desires to Stay in This City Providing Financial Support Can Be Obtained—His Proposition.

Mr. C. L. Craig, of this city, has a proposition from Bremen seeking to have his factory located in that town, but is desirous of remaining in this city providing he can obtain the financial support necessary for the success of his enterprise, and with this in view has submitted the following proposal to local business men:

To Whom It May Concern.

"I have a proposition from business men in Bremen, Ohio, to move my factory there. I have four articles to Manufacture all of them are either patented or the patent has been applied for on them. Consisting of barn and garage latches, Steel cement forms, lock washers, and an attachment for a hammer.
Now my proposition to the men of this town that are interested in the well fare of the town; it is my desire to keep this factory here, providing I can dispose of enough stock to finance it. I propose forming a stock company for \$10,000 and turn in my factory on west Market street with the machinery and contents at what they are worth and take stock for them. This building is 27x50 feet two story and one side a basement, is new and has city water, gas and Electricity.
The new company is to have the use of my patents.
After the price has been agreed upon for the factory and machinery (for which I am to take stock) I desire to sell stock in lots of \$100.00 or more to the amount of \$4000 and the balance of stock is to be treasurer stock. I also propose to devote my time making and selling this line at a salary to be agreed upon by the stockholders.
C. L. Craig."

IMPERIAL DEGREE STAFF AT THE STATE FAIR

The Imperial Staff of Temple Lodge, I. O. O. F., of this city, has accepted a proposition made by the State Board of Agriculture to serve their special "Uncle Sam Sanitary Sandwiches" at the State Fair, August 28 to Sept. 1.

The "boys" have meritoriously won an enviable reputation for serving first class "eats" and those attending the State Fair will have "real sandwiches" to appease their appetites. The very best materials are used in everything these boys serve, and their patrons have learned to appreciate a good, clean, wholesome service.

The same Degree Staff will have all the privileges at our county fair, where they will be glad to have all "the hungry and thirsty" call and be satisfied.

Some new special equipment has been purchased, and no better "lunch stand" will be found anywhere than these boys will have this year.

The Speeders Again

The newly paved streets of the city continue to attract the "speeders" and sooner or later, unless a halt is called, a smashup is certain to come.

Officials claim, and with much in conditions to support their claim too, that with present inadequate police facilities and the now long mileage of improved streets it is practically impossible to watch for, catch and punish offenders in a manner that will force realization of their own danger and the rights of others.

Just why it is that surrounding cities and towns even as small as Mt. Sterling can provide for a motor cycle and a "mounted cop" and this prosperous city be unable to protect its citizens is a problem in finance which most Washington people believe should be solved.

Cities everywhere are making a determined attempt to break up the dangerous practice of speeding and, praise be, they are making very appreciable progress.

Wholesale arrests are made and heavy fines are imposed. Both are necessary. Those who will not care for their own safety and the safety of others must be brought up with a jerk no matter how unpleasant the discharge of duty may be.

Officials charged with the enforcement of the law and the preservation of the people from death or injury either self inflicted or by the wilfull or careless act of another, should be granted every necessary facility and then held to strict account for results.

Right now Washington seems to be suffering the effects of "unpreparedness" in some quarter and people are much more interested in the consequences than they are in the cause.

Farming Means Hard Work

We have heard a great deal during the last decade about farming being a profession and no longer a calling requiring only hard work.

That's all true. The farmers of the United States have made wonderful advance in the science of farming. The soil has been scientifically analyzed with a view to determining to what crop it is best adapted. Plant life has been studied, remarkable experiments, crop rotation, building and maintaining the fertility of the soil and scores of other problems have commanded the attention of the farmers and scientists of the land.

Researches and exchange of ideas have worked wonders in the work of farming. Men are able to get far better results now with less physical exertion than they formerly did.

That's because they know now what to do and what not to do and why this, that or the other is necessary.

A prominent Fayette county farmer, a few days ago—a man who has made a conspicuous success of his calling—acknowledging the great progress made and being made by farmers ventured to suggest, however, that all the progress made had not yet succeeded in doing away with hard work on the farm and many failures in crops may be attributed to the mistaken idea, held by some, that hard work is no longer necessary on the farm.

Very correctly, this successful farmer pointed out, that the farmers knowledge now days enabled him to properly direct his energies and do his work where it would bring results. The advance made—the conversion of farming into a profession, if you please—had merely done away with useless toil.

Successful farming requires, now days, its full quota of hard work just as it always did and just as every business does. No business can be successfully conducted without hard work and farming is no exception.

Food Problem in Summer

The problem of what to eat and what to drink is always a stern one.

This time of year, however, if the weather is seasonable, and it is, the problem is not so much one of cost as it is to get something for the table which appeals to the appetite and is not injurious to health.

Very few people can boast that they possess a good appetite this kind of weather. Hot foods and especially hot meats do not appeal.

This kind of weather people want vegetables and green things on the table and that's the kind of food which is best for the health, too.

Nature has a way of changing the appetite to meet weather conditions, to bring on a craving for foods best for the system.

Care should be taken, however, to keep the appetite, seasonable as it is, under control. Too much of the ices, cold water, ice tea and the like are not best.

Care should be taken not to go to extremes in eating cold foods and drinking cold liquids. There is not enough of the strengthening properties in that diet and frequently, in the hottest weather, it is better to take some of the warm substantial foods and some hot tea or hot coffee. Even if the immediate effect is not pleasant the after effects will compensate for the effort. There must be enough of the heavier, warmer foods and drinks to enable the system to withstand the strain of the debilitating weather conditions.

Poetry For Today

IRRESISTIBLE.

The callin' of the country comes across the fields o' morn.
The mornin' winds are sighin' and the skies are clean and blue,
And the spirit of the harvest comes a-rustin' through the corn,
And the fieldlark's song is sweeter than the fieldlark's song I knew
And I know the trees are bendin' in the breezes from the south,
And I know the grass is runnin' in green billows as they blow,
And the rosebud is as poutin' as a little sweetheart's mouth,
And the callin' of the country's coaxin' me to rise and go.

There's a river road a-windin' underneath far apple boughs,
There are honey bees bazoomin' round the blooms beside the way
There's the bleatin' of the sheep and there's the lowin' of the cows,
And the locust's cheery shrillin' comes across the summer day;
Then the river road goes windin' zigzag up a distant hill,
Till it reaches the far summit, like a ribbon 'gainst the sky;
And it seems if I could climb it to the end of it, I'd spill
My soul into the gladness of the happy days gone by.

And it's thus the breezes call me, and I see the buttercup
Sort of bend and sort of beckon to the fields of long ago;
And I see the cuntry highway go across the bridge and up,
Till it looks down on the valley and the home I used to know;
And the road is hesitatin' underneath the shady boughs,
And the grass is like green billows in the summer winds that blow
And I hear the river's voice and I can hear the lowing cows,
And the spirit of the summer calls and calls and I must go.

FEARING SECOND EXPLOSION

Experts at Cleveland Stop Further Rescue Work.

GAS POURING INTO TUNNEL

Bodies of Eleven Men Entombed in the Waterworks Tunnel May Not Be Recovered For a Week—Now Believed Explosion Monday Tapped Gas Well in the Bed of the Lake. State Probe Ordered.

Cleveland, July 27.—Gas continues to pour into the waterworks tunnel under Lake Erie and there is great danger of a second explosion wrecking the tunnel and the outer crib.

The bodies of the eleven men entombed in the tunnel may not be recovered for a week.

L. M. Jones, federal mine expert, and a party made six trips into the tunnel and declared that the deadly gas is so thick in the tunnel that further rescue work should not be attempted until the flow is stopped. It is believed that the gas explosion of Monday night, which trapped the tunnel workers and took a toll of twenty-one lives, opened up a gas well in the bed of the lake.

Forty men quit work at Crib No. 5 and 100 left Crib No. 4, as a result of the report of the investigation, it being feared that gas from the outer crib tunnel has seeped through into the part of the tunnel extending from Crib No. 4. As a precaution against explosion, the electrical power has been turned off.

Gustav C. Van Duzen, superintendent of waterworks construction, who is recovering from the effects of his trip with a rescue party into the tunnel, declared in a statement that the electrical equipment in the Crib No. 5 section of the tunnel was responsible for the first explosion.

An investigation of the tunnel explosion will be conducted by the state. This was determined by the industrial commission, whose mining and factory inspection bureaus were instructed to proceed with the inquiry at once. Federal, municipal and county officials also have probes under way.

RUPERT HUGHES

Rupert Hughes, who, with his wife, wrote "Gloria's Romance," the new serial about to appear in these columns, is a profound scholar and a dramatist of large success. He was born at Lancaster, Mo., a small town. He has the master of arts degree from Western Reserve university and from Yale. His earlier books covered musical subjects, and for a time Mr. Hughes was on the editorial staff of the Encyclopedia Britannica. He was for several years connected in an editorial capacity with some of the most prominent periodicals in this country. He has written eighteen books and twelve of his plays have been produced. Many of his stories have appeared in the Saturday Evening Post, Cosmopolitan Magazine and the Red Book. Among his well-known stories are "What Will People Say?" "Clipped Wings," "The Thirteenth Commandment," but Mr. Hughes himself declares that "Gloria's Romance" is the best of them all.

BIG AUDIENCE IS DELIGHTED

Grand Opera Scenes Presented By San Carlo Company Proves Biggest Musical Event Ever Given in City—Company Pleased With Reception Accorded.

It is over. And never before has greater success crowned an achievement in this city than that which marked each day of the big Chautauqua which came to a close Wednesday night with the great San Carlo Grand Opera Company as a fitting climax to the many pleasing, entertaining and highly instructive features of the assembly, which had come before.

Wednesday afternoon the Junior Chautauquans gave an entertainment which was greatly enjoyed and they were followed by the Angelini Orchestra, with two of the San Carlo singers, forming a thoroughly pleasing entertainment.

At night by far the largest crowd of the entire chautauqua assembled at the mammoth tent, many being unable to get under the tent, and it was a highly appreciative audience which sat throughout the entire performance and drank in each number of the greatest musical program of its kind that ever appeared in this city, and the greatest Grand Opera company in chautauqua.

No part of the performance was light, and the magnificent company presented scenes from the heavier operas and were rewarded with storms of applause. Signor Ugo Barducci and his splendid orchestra opened the program with the overture from "Barber of Seville," faultlessly rendered.

The first scene was "The Troubadour," from "Il Trovatore," by Verdi, and with each character a strong one. The wardrobes were gorgeous and each character fitted perfectly. In the cast Mme. Alice Eversman, who possesses a magnificent soprano voice and who is to appear with Caruso next season, appeared as Leonora; Mme. Stelle De Mette as Inez; Sig. Giuseppe Agostini as Manrico, and Sig. Alessandro Modesti as the Count Di Luna.

Then in order were presented scene from act four—of "Il Trovatore," scene from "Carmen," scene from "Rigoletto," scene from "Cavalleria Rusticana," the singing of the Prologue from "I Pagliacci," by Signor Angelo Antolo. But the climax was reached with the presentation of scenes from "Lucia di Lammermoor," in which the entire company took part, and the big audience sat breathless until the last note had died away. In the final scene Mlle. Edvige Vaccari appeared as Lucy, and her high soprano voice and the voice of Sig. Giuseppe Agostini, as Sir Edgar, showed remarkable range and expression.

All lovers of Grand Opera and good music were thoroughly delighted with every phase of the great entertainment, including the superb work of the orchestra. While the audience appreciated the work of the company it may be of interest to those present to know that the San Carlo Company appreciated the reception given their performance, and not since they have been in chautauqua have they received a greater ovation than that given them by the audience in this city.

The appearance of the company in this city has awakened a still greater desire for more of the higher class of entertainment.

Funeral announcement later.

NO CHAUTAUQUA UNLESS TICKETS ARE SUBSCRIBED

Guarantee Not Yet Sufficient and Those Who Have Not Pledged Support for Next Year May Yet Do So—Big Numbers Available for Next Year.

Supt. of the Colt-Alber Chautauqua, Chas. Pilkington, left the city Thursday without carrying with him a signed contract for a chautauqua next year, and unless more tickets are pledged within the next few days, no contract will be made. The entire matter now rests with those who have not yet pledged to take tickets if they are here next season.

The big success of the chautauqua just closed is expected to result in enough tickets being pledged providing every man, and woman and child notifies, without delay either Supt. McClain or Harry Rodecker, of the number of tickets desired next season.

It was expected that enough tickets would be pledged at the final session, but this number failed to appear, and the committee is lacking a considerable number.

The benefits to be derived from a chautauqua are now too well known to repeat, and those expecting to enjoy the benefits next year, must act and act quickly, for unless the number of tickets is attained by next week, no contract will be signed.

Next years chautauqua offerings include a number of attractions which in every way equal some of the big ones of the course this year.

Next year we are offered Harry Lauder and The Russian Symphony Company by the Chautauqua managers.

AGED MAN TELLS A LURID STORY

A man apparently 70 or more years of age appeared at the Mayor's office, Thursday morning and asked for relief from keeping two grandchildren, about 8 and 10 years of age, stating that the father of the two children was making sufficient funds to aid in giving the children a home, and that he himself no longer felt that he could supply himself and the two children with ordinary necessities of life.

He stated that the man had married his daughter several years ago, and that while the two children were still young the mother died, and the children were placed in his hands for keeping.

Since the death of the mother, according to the aged man's story, the father married a colored woman in Chillicothe and now resides in this city.

The man was to appear Thursday afternoon and file an affidavit against the father for non-support.

HOTTEST DAY OF THE YEAR

At one o'clock Thursday afternoon the government thermometers registered 100 degrees, and other thermometers more exposed swept entirely over the 100 mark and soared still higher.

Owing to the little amount of air, Thursday was pronounced the hottest day of the season, while Wednesday night was probably the hottest night of the season, the mercury registering 75 degrees at midnight, and dropping only five degrees by morning, and then starting once more on the upward course. These last figures are from the Gosard self-registering thermometer.

According to the weather man no relief is in sight, hot weather being predicted for Friday.

MEMOIR.

Elbert Robison, son of Humphrey and Catherine Robison, was born at New Market, Highland Co., Ohio July 7, 1880. When only a small child, his parents moved to Washington C. H., where he spent the greater part of his life. During the last nine years, he resided in Springfield, O.

When a young man, under the ministry of Rev. Austin Hunter, he united with the Christian church of this city.

Several weeks ago he went to Columbus, to work. While engaged in the erection of a building in that city on the 19th of July, the scaffold gave way on which he was standing and he fell to the concrete floor, a distance of about 25 feet, alighting on his shoulders. A number of bones were broken and his body severely bruised. He was taken to the Mt. Carmel hospital immediately, but it was found upon examination, that his injuries were of such a character that recovery was absolutely impossible. He lived for about a day after the accident and passed away July 20, 1916, aged 36 years and 14 days.

He is survived by his mother, Catherine Robison of Springfield, one brother, William Robison of Washington C. H., two sisters, Mrs. Earnest Beuler of Washington C. H., and Mrs. Attie McArthur of Springfield, O.

He was the support of his widowed mother, and faithfully looked after her needs and cheered her in her declining years.

In manner he was quiet and unassuming, but always ready to lend a helping hand to those in need. One of his friends said, "he would give away his last cent to help some one in need." In his quiet way he made a host of friends everywhere he went.

"A precious one from us is gone, A loving voice is still; A place is vacant in our home, Which never can be filled."

CARD OF THANKS.

We wish to extend to the neighbors and friends, our deep appreciation for the many kindnesses shown during the recent death of our beloved son and brother, Elbert Robison.

We especially thank the members of the D. of P. and D. of A., and the Improved Order of Redmen, and others for the beautiful flowers.

To the members of Jr. O. U. A. M. of Springfield who so kindly assisted in the funeral services we are truly grateful, and to E. Snider and Son and fellow workmen of Columbus we extend our heart felt thanks for the beautiful flowers.

for the beautiful flowers and to thank also Rev. Groves for his comforting words and those who sang

for the beautiful music rendered. Mrs. Catherine Robison, Mrs. Earnest Beuler, Mrs. Attie McArthur, William Robison

TROOP TRAIN STOPS HERE

While people are wondering whether more troops will be sent to the border for service at that point, troop trains, laden with recruits for the regular army, are still being sent to the border, and the second such train to pass through this city this week was handled by the B. & O. Thursday morning as second section of No. 109, due here at 9:38 a. m.

The train, like one which went through Tuesday, was made up of a baggage car and three tourists sleepers, and carried soldiers from the Columbus Barracks to fill up the lines of companies sent out earlier.

The B. & O. has equipment ready to move other troops out of Columbus on short notice.

Both troop trains stopped here for water and then continued on their way at a rapid rate of speed.

THE TURKS EVACUATE ERZINGAN

Russians Capture Important
Armenian Town.

BRITISH SCORE IN WEST

Capture the Village of Pozieres After Days of Fighting. Together With Two Strong Trenches West of the Town—Russians Claim Success in the Volhynia Sector—Review of Operations.

London, July 27.—The Turks have evacuated Erzincan, in Turkish Armenia, and the Russians are in possession of this important strategic point.

The reports of the evacuation have not mentioned as yet whether the Turks, in their retreat, were able to take away, in the face of the rapid Russian advance, the guns and stores in Erzincan.

In the Volhynia sector, the Russians are keeping up energetically their pressure on the Teutonic allies in the Slonevka river region and also are attacking the Teutons in north Galicia, near Brody. In the Slonevka district, Petrograd says the Teutons are suffering heavy casualties, and that more than 4,000 men, five guns, six machine guns and quantities of munitions have been captured by the Russians.

With the village of Pozieres completely in their hands and having strengthened their position there by the capture of two strong trenches west of the village, the British troops seemingly are resting before attempting again to throw their forces against the Germans, who are blocking their advance toward Bapaume.

South of the Somme the French have recorded another success in the taking of a fortified house, with some prisoners, southeast of the village of Estrees. Except in the Champagne, where the artillery on both sides was engaged in somewhat violent actions, little fighting took place on the remainder of the French front.

The Petrograd and Berlin communications are at variance concerning the results of fighting that has taken place near Riga and in the vicinity of Baranovich. Petrograd claims the repulse of an offensive by Field Marshal Von Hindenburg's men near Riga, while Berlin asserts that the Germans penetrated the Russian advanced positions there and destroyed them.

Likewise Petrograd claims a slight gain for the Russians near Baranovich, while Berlin declares that strong Russian attacks in this vicinity were put down with heavy casualties.

The German admiralty asserts that a German submarine twice torpedoed a British dreadnought off the Orkney islands, Scotland, July 20, but the British admiralty says the vessel attacked was a small auxiliary and that it was not hit.

VICIOUS HOLD UP

(By American Press)

Indianapolis, July 27.—After two automobile bandits assaulted Harvey D. Tilman, cashier of the East Tenth Street State bank, rendering him unconscious, they stole \$2,000 and escaped.

The bandits, both apparently about nineteen years old, entered the bank, said Tilman, while he was alone. One pointed a pistol at him and ordered him to throw up his hands. "You're joking," said Tilman. "Think I am?" asked the gunman, and he fired a shot that barely missed the cashier's head.

At the same time the second robber broke open the door of the cage and struck Tilman over the head, fell him to the floor.

After locking Tilman in a closet, the robbers gathered in all the loose change in sight. The robbers drove away in an old model Ford machine, having no license tag, but bearing a card stating "license applied for."

SOLVING IT

(By American Press)

Dayton, O., July 27.—Plans for the construction of a home for the Dayton leper and his family have been completed by the building inspector and the city commission was asked to appropriate the sum of \$4,000 for use in the construction of the building. The building will be so constructed that the wife and child can communicate with the leper without coming in actual contact with him. A sum of \$500 will also be set aside for the maintenance of the family.

WARSHIPS ON GUARD

Ordered to Neutrality Duty Off the Virginia Capes.

Washington, July 27.—Aroused by an official report from the commander of the battleship Louisiana that a mysterious ship, purporting to be a British cruiser, had passed into the mouth of the Chesapeake bay, the navy department ordered the armored cruiser North Carolina and three destroyers to neutrality duty off Cape Henry.

Officials maintained unusual secrecy regarding the matter and would not disclose just what instructions were sent to the commander of the North Carolina. It was assumed, however, that he had been directed to see that the German merchant submarine Deutschland, now preparing for her return trip to Germany, is not attacked by allied war vessels within the three-mile limit and that American neutrality is not otherwise violated.

Unofficially navy officers agreed that if the ship sighted from the Louisiana was a British cruiser, the commander of the vessel had been guilty of a breach of naval practice and had violated navigation laws in cruising within American territorial waters without proper lights. While it was conceded that the cruiser was within her rights in entering territorial waters, provided she had observed the rules, it was declared an attempt to run into the bay on a scouting expedition and in disregard of navigation laws would constitute a gross violation of international courtesy.

DEUTSCHLAND WAITS

(By American Press)

Baltimore, July 27.—Carl A. Luetitz, German consul here, said that the merchant submarine Deutschland would not leave for a week. When asked why her departure was further delayed after clearance papers had been taken out, the consul would make no explanation.

NEW "PREXY"

(By American Press)

Delaware, O., July 27.—Rev. Dr. Washington Hoffman, pastor of First Methodist Episcopal church of Duluth, Minn., was elected the sixth president of Ohio Wesleyan university. Rev. Dr. Hoffman, Rev. E. S. Tittle, pastor of William Street Methodist Episcopal church, this city, and Rev. Dr. Rall of Garrett Biblical Institute, Evanston, Ill., were all three recommended to the board of trustees. When the committee of trustees and faculty members failed to agree unanimously upon a candidate, the election of Rev. Dr. Hoffman resulted. Rev. Dr. Hoffman succeeds Bishop Herbert Welch, elevated to the episcopacy at the last session of the general conference at Saratoga. Dr. Hoffman was born in Pennsylvania in 1867.

HIGH UP OFFICIAL INVOLVED

Witness Testifies at New York Graft Inquiry.

WAS FORMER STOOL PIGEON

Keepers of Disorderly Houses and Women of the Street Declare They Were Forced to Pay Tribute—Seven Policemen Already Under Indictment, and More Sensational Revelations Promised by District Attorney.

New York, July 27.—At the investigation being conducted by District Attorney Swann into charges of grafting by members of the police vice squad, a local deputy police commissioner was named by a witness.

Seven policemen already have been indicted on evidence supplied by underworld characters and District Attorney Swann declared he expected even more sensational revelations.

The name of the deputy police commissioner was dragged into the case by Max Turkowitz, known to his intimates as Max Pimple, a former stool pigeon for Detective William J. Enright, indicted commander of the vice squad. Turkowitz made an affidavit that while employed by Enright he collected tribute from keepers of questionable resorts. He was arrested last June on a charge of extortion. A few days later he was visited in jail by Detective David J. Foley, a co-worker with Enright, and also under indictment. In his affidavit, Turkowitz quoted Foley as having said to him: "Enright went down to Commissioner and asked him if he would be allowed to testify for you as a witness and the commissioner said 'Yes. Do you need some money? No? Well, don't be afraid. We'll get you out. Enright and I will testify for you and we'll have the complainants held for perjury—the deputy commissioner said we could do it.'"

Subsequently, while on his way to court in the custody of detectives, Turkowitz was accosted by Enright and Foley, he asserted in his affidavit. Enright handed him a sum of money and Foley reiterated his pledge of assistance. This incident is said by the district attorney to have led to the investigation now in progress.

Turkowitz pleaded guilty to the extortion charge and was released on a suspended sentence.

Keepers of disorderly houses and women of the streets have declared they were forced to pay under threat of being arrested on a "framed up" charge.

Another source of revenue devised by Enright, the district attorney declared, was a plan to give dances in an East Side hall, under the auspices of a mythical yacht club. Keepers of disorderly resorts and criminals were forced to buy tickets. It is asserted, while other tickets were distributed free among girls employed in department stores. Many of the girls innocently attended the dances. Mr. Swann has been told, and there became the prey of "white slavers."

TWO SPEAK

(By American Press)

Sidney, O., July 27.—At the Shelby County Farm Bureau association picnic here today two senatorial candidates, Myron T. Herrick and John J. Lentz, spoke and interested the farmers. Mr. Herrick elaborated his farm loans project, proposing to give farmers the same advantages in borrowing money that is accorded the ordinary business man. Mr. Lentz presented his plan of a government telegraph system connecting every postoffice in the United States, and providing for messages of thirty words at a nominal charge of 10 cents, thus enabling farmers' mutual telephone companies to be in touch with every citizens of the republic. He also advocated the election of postmasters by the people.

PROBABLE GOOD

(By American Press)

Columbus, July 27.—The series of clean-up weeks inaugurated by State Fire Marshal Bert B. Buckley and conducted by his assistants in the various cities of the state have been brought to a successful conclusion, with the following results in fourteen cities (Athens, Canton, Cincinnati, Cleveland, Columbus, Coshocton, Fostoria, Ironton, Marietta, Marion, Nelsonville, Norwood, Portsmouth and Toledo): Tear down orders of fire hazards, 916; repair orders, 1,004; electrical orders, 87; rubbish removed, 642; rubber hose gas connections changed, 45.

CAMP PERRY IS NOT SUITED

Guardsmen May Not Be Transferred to the Lake.

Columbus, July 27.—Officers at the mobilization camp in Upper Arlington contend that they are still in the dark as to where Ohio troops will be dispatched by the war department. Some Colonel Vollrath of the Eighth being one of them, said "inside indications" are that they will go to the border when equipped.

Major Mearns said that the war department is still uncommunicative. Colonel Duffy, camp quartermaster, stated none of the needed supplies had arrived and no word has been heard as to why they have not. Until equipment is received no troops will move.

It was said that part of the Camp Perry drill ground has been plowed up and is unfit for troop maneuvers. This might cause Colonel Hunter to frown on transferring troops to the lake.

Troops who are rejected because of physical disabilities hereafter will be paid 3½ cents a mile for their return home, General McMaken, camp commander, announced. This is provided by law, he said. Major Shetler of the quartermaster's department admitted that all of the 4,000 men who have been rejected were allowed only 2 cents a mile. They will not be given the additional allowance now, however, it was stated.

WILSON ON MILITIA

(By American Press)

Washington, July 27.—In reply to a complaint from Henry Smith of Wynamac, Ind., who has a son in the national guard, President Wilson wrote that the guard was being kept on the Mexican border to protect the country, not for drill, and that the service the men were performing was an honor to them and a necessity to the United States.

THREE ARE CRUSHED

(By American Press)

Tipton, Ind., July 27.—Every A. Mock, former state treasurer, and his sister-in-law, Mrs. Mell O. Mock, were killed when an automobile in which they were riding was struck by an interurban car at Hathaway crossing, near here. The husband of the woman, and brother of the man killed, was taken to his home probably fatally injured.

WILL PASS THE BILL

Washington, July 27.—The Democratic senators, in caucus, decided to pass the child labor bill at this session, as urged by President Wilson.

OLD STORY

(By American Press)

Columbus, July 27.—The charge of making false entries in a bank book was filed against John W. Bailey by L. J. Schlaechter, auditor of the Citizens' Trust and Savings bank of this city, where Bailey was until recently employed as a bookkeeper. Bailey is said to be in New Orleans. The alleged false entries in Bailey's books are said to cover a shortage of about \$5,000. The local police understand that Bailey is under surveillance in New Orleans and Chief Carter wired for his arrest. Bailey is married and lived at 21 University Place.

Bailey was placed under arrest at Cincinnati as he stepped from a train that carried him from New Orleans.

PAY FOR REPORTS

(By American Press)

Columbus, July 27.—State Fire Marshal Buckley is now engaged in distributing "pay checks" to hundreds of township clerks throughout the state. The state paid 50 cents for each fire report and 15 cents mileage.

WHY THIS, JOHN?

FIRST EPISODE

Lost in the Everglades.

"Rather remarkable, isn't it," said the sick old lion, Judge Freeman, "that the most expensive hotel and the most luxurious resort in the world should be only a few miles from an almost impenetrable wilderness inhabited by Indians that the United States army could never dislodge?"

"Yes, it is odd," said his young doctor, "but the prices here are almost as impenetrable as the knife grass of the everglades. And as for Indians, the United States navy couldn't dislodge some of these old millionaire squaws from their snobbishness."

"I'm afraid my daughter finds it so," the judge agreed. "Here we've been for two whole weeks and Lois doesn't know anybody who is anybody—except Pierpont Stafford's boy, and I'm afraid he's only flirting with her."

Doctor Royce had not been engaged to prescribe for Miss Lois Freeman's ambitions, so he changed the subject. "It's hard to believe that there is a blizzard in New York today when you look at these flowers and see those half-dressed mobs wallowing in the surf."

The judge gave a jump and gasped: "Good Lord, hear that scream! Some woman is being murdered."

Royce checked him with a gesture and a smile.

"Sit still, judge; it's only Gloria Stafford having another battle with her governess."

The judge settled back into his blanket, grumbling: "The little devil—always in hot water."

Doctor Royce came to her defense with a curious warmth. "They're driving her with too tight a rein. She's too big hearted and brave and wise to be treated as a child much longer."

The old man sighed: "We fathers with motherless girls to raise are pretty helpless cattle. I can send a criminal to the chair, but I can't punish my daughter; she does what she pleases, and it rarely pleases me. And Pierpont Stafford can run a string of banks and make a railroad system eat out of his hand, but that girl of his has him—I believe they say 'buffaloed'—or is it 'Pittsburghed'? Isn't that Pierpont out there in the surf now? I wish I could go in. Do you think I might?"

The doctor shook his head: "You run out on the links and play a little golf among the palm trees. Tomorrow I may let you have a dip."

"I don't feel quite up to golf."

"Go on; don't disobey. You're worse than—that—" Another scream from the corridor gave him the missing word. "You're worse than Gloria."

He lifted the judge from his chair, thrust a bag of golf clubs into his

pleaded: "Who'll play with me? With you?"

"Not much! You've had enough of me for today. Here's your daughter, Miss Lois, let me introduce your father. Take him round the links once, won't you?"

Lois obeyed with more grace than graciousness. Her thoughts were on the two strings to her bow. She had had to content herself for her first week at Palm Beach with the attentions of Richard Freneau, a young broker in charge of a branch office at the Royal Poinciana. But recently she had caught the eye of David Stafford, and she had tried to hold it. Freneau was handsome—much too good looking for his own good or the good of any girl or woman he focused his eye upon. Freneau was magnetic and he was great fun, but David Stafford was good business. To capture the son of Pierpont Stafford would be high finance—something tremendous.

The judge, her father, kept his eyes on Lois more than on the golf ball, and landed in the bunkers with regularity. He knew that his daughter was up to some mischief, but he was sure that it was not the innocent mischief of the obstreperous Gloria.

OWL CAR FOR LOVERS.

Traction Magnate Out West Will Make New Arrangements.

Cleveland, O.—That all the world still loves a lover is to be demonstrated by Joseph Jordan of Willoughby, vice president and general manager of the Cleveland, Painesville and Eastern railroad.

"And I'm going to see that every one of them gets a square deal if my influence counts for anything," he said.

Mr. Jordan learned that young men who go to see their "best girls" in Lake county and take the last car back to Cleveland at night must wait three-quarters of an hour for a city car at the East Cleveland "Y" after midnight before they can continue their journey.

"I shall take the matter up with John Stanley of the Cleveland Railroad company and arrange with him to have a city car wait for the last interurban car," Mr. Jordan said.

NEW HOLLAND PICNIC DRAWS GREAT CROWDS

Annual Event in Kirkwood Park Today Said to Eclipse All Previous Picnics—Tip-top Entertainment and Contests Galore—Attendance Reaches Into the Thousands.

The annual Home Coming, Field Day and Picnic held Thursday in Kirkwood grove near New Holland, under the auspices of the Knights of Pythias and Modern Woodmen lodges, with Messrs. J. T. Timmons, Clark Bryan and Wm. Mitchell the committee in charge, is one of the biggest, if not the greatest event ever engineered by the two lodges, and thousands of persons from all over the surrounding territory flocked to the grove to spend the day, a large number taking their dinners and spreading them beneath the giant oaks at the noon hour for a real old-fashioned picnic dinner.

The big grounds resembled a small fair, with many tented attractions, including merry-go-round, lemonade and ice cream stands, shows of various kinds, and in fact everything to insure pleasurable entertainment to all who could not find it otherwise.

The usual coal show, field events, mule races and what-not attracted their share of attention.

Automobile parties by the hundreds flocked to the grounds, and the only complaint was because of the intense heat, which made the abundance of shade and the ice cold refreshments much sought after. Many brought their suppers to remain until dark.

So well had the committee planned that there was no friction in any part of the big event. A balloon ascension at six o'clock was announced for the grand finale of the biggest picnic New Holland ever gave.

Horse's Legs Broken.

A horse driven by Earl Marshall and owned by Chas. Kirk, suffered two broken legs when it was struck by an automobile while on the way from New Holland to the grounds. The autoist's number was obtained. It will be necessary to kill the horse.

BAND CONCERT FRIDAY NIGHT

The second of a series of open air band concerts will be given on the court house lawn Friday evening, beginning at eight o'clock, and as usual the public is invited and urged to attend.

The program presented will be entirely different from that of the last concert, and includes new and high class numbers.

CHARGED WITH CONSPIRACY

By Associated Press Dispatch.
Newark, N. J., July 27. — Warrants for the arrest of Edward H. Hatch, vice president of the Mutual Trust Company, of Orange, N. J., closed Monday by the State Banking Commission, and for Thomas F. Byrnes, secretary and treasurer of the institution, were issued here today.

They are charged with conspiracy to defraud the bank out of \$306,000. The bank was closed after an examination of its accounts by state banking officials, but no explanation for the action was made at the time.

The institution is one of the largest of its kind in northern New Jersey, with deposits totalling nearly \$1,500,000.

SITTING TO HEAR CASEMENT PLEA

(Associated Press Cable)

London, July 27.—The London Agency says that a public execution of Roger Casement is highly improbable, and that, in the absence of special instructions from the Government, arrangements to hold it in privacy at the Pentonville prison, August 3, will be proceeded with.

London, July 27. — Justice Darling announced today that the five judges who heard the appeal of Roger Casement against the sentence of death on the charge of high treason in connection with the Dublin revolt, would sit tomorrow to "hear a possible application on behalf of the convict."

The nature of the application was not disclosed.

SUSPECT HELD FOR BOMB CRIME

San Francisco, July 27. — With the arrest of Warren K. Billings, a shoe cutter, aged 32, the police asserted today that they were confident that their net soon will be closed on a "ring of five," of whom Billings is alleged to be a member, who are alleged to have perpetrated the bomb explosion during the preparedness parade of last Saturday.

CAR STRIKE MAY SPREAD

New York, July 27. — Intention to extend the street car strike to all lines in New York city, including surface and elevated, was announced today after a meeting of the general executive board of the Amalgamated Association of Street and Electric Railway Employees of America.

OUTBREAK OF STRIKERS

Brick and Other Missiles Are Hurlled By Striking New York Car Men.

New York, July 27.—The first serious outbreak in the strike of street car men in the Bronx and Westchester County occurred shortly after noon today, when a mob of several hundred strikers and sympathizers attacked a car in the Bronx.

Bricks were hurled at the car, and it is reported several persons were hurt. Police reserves and ambulances were summoned.

On the arrival here of W. D. Mahon, president of the Amalgamated Association of Street and Electric Railway Employees of America, the motormen and conductors of all the street railways in the city may be asked to join the strike.

Not a car moved in Yonkers today. Mt. Vernon and New Rochelle were also without car service.

Police inspectors announce that, in anticipation of trouble, more than 600 reserves were being held in readiness.

During the forenoon there were clashes between strikers and car men.

"PAY CALL" FOR OHIO BOYS

Camp Willis, July 27.—The call for which Ohio's national guardsmen have waited long was sounded today. It wasn't the call to arms, but it was the pay call.

It was the first money the men have received from the federal government since they mobilized following the order of President Wilson.

Most of them received \$6. Aside from pay day, the camp was still in a dull routine.

MR. GRINNELL'S UGLY CHARGES

London, July 27. — Laurence Grinnell, Nationalist, whose opposition to the Government has grown aggressive since the Irish insurrection last Easter, and who, in questions to the Cabinet ministers, makes the most serious charges against the Government, caused a short suspension of the sittings in the House of Commons, owing to his refusal to withdraw when ordered to do so by the Speaker of the House.

SLIGHT DECREASE IN DEATH LISTS

New York, July 27.—Only a slight decrease in the epidemic of infantile paralysis was noted today in the health department's report for the 24 hours ending at 10 a. m.

During that period, there were 31 deaths and 151 new cases.

More than 700 children now have been killed by the plague since its inception, on June 26, and there have been more than 3,000 cases reported.

KILLS WIFE THEN SUICIDES

Norfolk, Va., July 27. — Just a few hours after Z. E. Keister, prominent real estate operator, died today from a bullet wound he inflicted last Thursday, after the charred body of his wife had been found in the ruins of their home here, a coroner's jury met to inquire into the woman's death and found that Mrs. Keister met death at the hands of her husband.

The police, proceeding on the theory that Mrs. Keister was murdered before the fire started, had spent a week investigating the case.

GOT THE "GUN"

Thursday afternoon a man tipped off Chief Moore that a man would be found on the court house lawn who had an ugly piece of mountain artillery protruding from his hip pocket.

Being busy at the time he dispatched Patrolman Judy to pinch the man and obtain the gun.

Patrolman Judy hurried forth, saw the man, ditto the gun, and pounced upon 'em. He obtained possession of the gun and suddenly became dizzy when he discovered it was glass, but a perfectionist of a pistol of heavy caliber.

BRITISH SHELL GERMAN
LINES BEYOND POZIERES

Heavy Artillery Attack Promises Renewal of Advance By Sir Douglas Haig in Fight for Bapaume.

Rumors of Naval Combat Persist in Spite of No Authentic Reports.

Russian Advance Continues.

(Associated Press Cable)

LONDON, JULY 27. — HEAVY SHELLING OF THE GERMAN LINES ON THE SOMME FRONT BY BRITISH GUNS IS IN PROGRESS, FOLLOWING THE SUCCESS OF GENERAL SIR DOUGLAS HAIG IN WINNING HIS HOLD UPON POZIERES, POSSESSION OF WHICH WAS NECESSARY TO A FURTHER ADVANCE TOWARD BAPAUME, HIS OBJECTIVE.

London today reports activity throughout the night by the British artillery, apparently in preparation for a renewal of the attack.

Rumors that an important naval battle has occurred in Scandinavian waters were met today by a statement of the British admiralty that it had no reports of any naval activities in the region indicated.

Turkish claims to advantage over the British in cavalry skirmishes in Egypt, in the district east of the Suez Canal, are denied in a report from the British commander in Egypt, who reports that he has the situation well in hand.

The sinking in the North Sea by German submarines of four Norwegian vessels with cargoes of timber is announced from London, which reports their destruction as part of an energetic campaign started by the Germans against timber-carrying vessels in those waters.

Petrograd announces the capture of a total of 6,250 prisoners by the Russians in the fighting of Tuesday, when the Teutonic lines were pushed back in the Slonevka region of Volhynia.

MAY ABANDON
RESCUE WORK

Workers May Never Be Able to Reach Bodies of Entombed Men.

Jones, of Pittsburgh, government mine expert.

Possibility was seen, in Jones' expressed belief, that a gas well of uncontrollable proportions has been uncovered under the bed of the lake as the result of the tunnel explosion.

If it is possible, rescue parties will enter the tunnel today; but the entombed bodies are behind a cave-in nearly 300 feet long, and it is feared the gas is so dense in the tube that men will be unable to stay in the tunnel long enough to dig through the distance.

Special machinery will be needed to penetrate the wall of mud which hides the bodies. No more bodies are expected to be found for a week or more.

Waterworks officials said today they believe there are only nine bodies in the tunnel, instead of eleven, as previously estimated, reducing the total loss of life to nineteen.

The city's investigation into the tragedy was to reach the stage of examination of witnesses today.

STATE PROBES

Two state probes of the waterworks tunnel explosion at Cleveland were to begin today; one by the State Inspector of Workshops and Factories, and one by the State Mine Inspection Bureau.

Investigators for both offices have gone to Cleveland and will work with federal inspectors.

Columbus Parents Break Records for Large Family.

By Associated Press Dispatch.

Columbus, O., July 27. — The birth of the twentieth child to the same father and mother was recorded today by Dr. Martin W. Bland, State Registrar of Vital Statistics.

This is the first case on record in Ohio where there have been twenty births in one family.

The child, a girl, was born to Mr. and Mrs. James F. Hess, of Martins Ferry.

The mother of the child is 44 years old. Only eight of the twenty children are living.

By Associated Press Dispatch.

Washington, July 27 — Prospects of an early agreement between the American and Mexican Governments to submit the border disagreement to a joint commission were described as brighter today, after acting Secretary Polk again conferred with Eliseo Arredondo, General Carranza's ambassador.

The conferees found themselves closer to an agreement on the several points which delayed formal announcement that General Carranza's suggestion for a commission would be accepted.

The Washington Government wants to widen the scope of the commission's investigation beyond General Carranza's suggestion that it discuss the withdrawal of American troops; measures to protect the American border interests from bandits; and the origin of raids.

It was assumed that Mr. Arredondo was able to assure Mr. Polk today that his government was

Baltimore, July 27. — If Captain Paul Koenig of the merchant submarine Deutschland plans to start today on the return voyage to Germany, there was nothing going on this morning at the pier where the submarine is berthed that was any more indicative of departure than has been the case for the last few days.

Overnight developments, in fact, tend to increase the probability of a report late last night that it had been decided to hold the Deutschland here until some word has been received concerning her sister ship, the Bremen.

COAL COMBINE IN ENGLAND

(Associated Press Cable)
London, July 27.—The greatest coal combine known to the United Kingdom has just been effected by Lord Rhondda better known to Americans as D. A. Thomas, the Welsh coal magnate. He has brought into the Cambrian Combine, of which he is managing director, between 3,500 and 4,000 acres of the richest portion of the South Wales coal fields belonging to D. Davis & Sons, Ltd. The deal involves the transfer of the collieries of the Welsh Navigation Steam Coal Company, Ltd., acquired three years ago by Davis & Sons for \$1,574,250. The combine places Lord Rhondda at the head of an organization with a capital of \$17,765,170.

Public interest has been so much concentrated in the war that, outside business and financial circles, practically no interest has been taken in the gigantic effect of the deal. It is that the Consolidation Cambrian Combine controls now all of the fields producing the renowned steam coal which has contributed so much to the supremacy of the British mercantile marine and which has been said to constitute the life of the British Navy. It is said that there is no coal in the world with a higher reputation for bunkering purposes, and that more record runs by ocean craft between New York and Liverpool have been made with this coal than with any other.

Details of the deal are not available, but it is understood that the market value of the shares of D. Davis & Sons, Ltd. have appreciated in value recently from \$7,678,125 to \$10,040,625.

The great combine will have an annual output of 6,000,000 tons.

BULGARIANS ARE SHOELESS

(Associated Press Cable)
Brene, Switzerland, July 27.—According to reports here, the Bulgarians and German have about a half million men ready for an attack upon Saloniki. The greatest difficulty the Bulgarians have had to contend with is the lack of shoes. A Swiss doctor just returned from Sofia says that fully half the Bulgarian forces are without shoes, which civilians also find with difficulty at prices running from eight dollars a pair upward.

Bulgaria, without shoe factories and tanneries, is also short of hides. The entire stock on hand has been distributed among the troops. The soldiers are cutting them up themselves and make a crude kind of sandal such as served as foot wear for 300,000 Bulgarian, Serbian and Turkish soldiers during the Balkan wars.

Tourists and military boots sell for \$28 to \$30 a pair when they are to be had. The government has advertised for leather, offering four dollars a pound, without avail.

RUSSO-JAPANESE TRADE INCREASE

(Associated Press Cable)
Tokio, July 27.—Charles Miller, a Russian financial agent, has arrived in Japan to arrange for the payment of war munition purchased here and to investigate and study the commercial and industrial conditions with a view to promoting Russo-Japanese trade. Mr. Miller predicts a steady increase in commerce between the two countries when the war is concluded. He said that the abolishment of the sale of vodka, while sacrificing a revenue of over 500 million rubles, has brought about an important improvement in the economic conditions of the Russian people and had greatly increased their purchasing powers.

(Associated Press Cable)
Paris, July 27.—Exchanges of gold for paper at the Bank of France continue at the remarkably uniform rate of about six million francs per week. A committee has now been organized under the presidency of M. David-Mennet, president of the Paris Chamber of Commerce, to give greater impetus to the influx. The committee includes the presidents of all the chambers of commerce in France and the most authorized representatives of every branch of art, industry and business. The object of the committee is to co-operate with citizens in every locality in France in a systematic education of the people in the great advantages to the country in having all the gold in the Bank of France.

SHIP BUILDING ON THE BOOM

(Associated Press Cable)

London, July 27.—A new epoch in shipbuilding which has been inaugurated by the formation of a "Standardized Ship Construction Company" with a capital of \$1,500,000 had its inception from the United States whence the first suggestion of standardization emanated. The plans are provided for the construction at Chepstow of ten large ships at the same time, of a standardized type, 8,000 tons dead weight with a length of from 450 feet to 650 feet, while machinery will also be especially designed for producing standard parts of hulls and engines.

The scheme is backed by the leading shipping interests of Great Britain and the idea has been approved in shipping circles where the dearth of vessels is being badly felt. The craft to be built will be well suited for the South Wales ports, to carry coal out and bring back grain.

This preparation for current and after war needs will probably soon extend to an Empire shipbuilding development and in addition to one large British firm already engaged on shipbuilding in Canada, three others, Vickers, Cammell Laird and John Brown and Co. of Clydebank, are reported to be planning to start shipbuilding in that part of the empire. It is thought that these ideas or rumors if they come to fruition will in a large measure solve the difficulty of congestion of labor and output in many of the crowded areas of Great Britain, as the firms mentioned are sure to take a large number of workmen to their new yards.

The establishments of the standardized idea and the extension of shipbuilding to other parts of the Empire is necessary in view of the tremendous boom now in progress in neutral countries especially the United States, where it is thought the cost of production after the war will be very little less than here—labor charges in Great Britain being bound to rise after peace is declared.

BREMEN WANTS CRAIG FACTORY

Manufacturer C. L. Craig Has Offer But Desires to Stay in This City Providing Financial Support Can Be Obtained—His Proposition.

Mr. C. L. Craig, of this city, has a proposition from Bremen seeking to have his factory located in that town, but is desirous of remaining in this city providing he can obtain the financial support necessary for the success of his enterprise, and with this in view has submitted the following proposal to local business men:

To Whom It May Concern.

"I have a proposition from business men in Bremen, Ohio, to move my factory there. I have four articles to Manufacture all of them are either patented or the patent has been applied for on them. Consisting of barn and garage latches, Steel cement forms, lock washers, and an attachment for a hammer. Now my proposition to the men of this town that are interested in the well fare of the town; it is my desire to keep this factory here, providing I can dispose of enough stock to finance it. I propose forming a stock company for \$10,000 and turn in my factory on west Market street with the machinery and contents at what they are worth and take stock for them. This building is 27x50 feet two story and one side a basement, is new and has city water, gas and Electricity.

The new company is to have the use of my patents.

After the price has been agreed upon for the factory and machinery (for which I am to take stock) I desire to sell stock in lots of \$100.00 or more to the amount of \$4000 and the balance of stock is to be treasurer stock. I also propose to devote my time making and selling this line at a salary to be agreed upon by the stockholders.

C. L. Craig."

IMPERIAL DEGREE STAFF AT THE STATE FAIR

The Imperial Staff of this Temple Lodge, I. O. O. F., of this city, has accepted a proposition made by the State Board of Agriculture to serve their special "Uncle Sam Sanitary Sandwiches" at the State Fair, August 28 to Sept. 1.

The "boys" have meritoriously won an enviable reputation for serving first class "eats" and those attending the State Fair will have "real sandwiches" to appease their appetites. The very best materials are used in everything these boys serve, and their patrons have learned to appreciate a good, clean, wholesome service.

The same Degree Staff will have all the privileges at our county fair, where they will be glad to have all "the hungry and thirsty" call and be satisfied.

Some new special equipment has been purchased, and no better "lunch stand" will be found anywhere, than these boys will have this year.

The Speeders Again

The newly paved streets of the city continue to attract the "speeders" and sooner or later, unless a halt is called, a smashup is certain to come.

Officials claim, and with much in conditions to support their claim too, that with present inadequate police facilities and the now long mileage of improved streets it is practically impossible to watch for, catch and punish offenders in a manner that will force realization of their own danger and the rights of others.

Just why it is that surrounding cities and towns even as small as Mt. Sterling can provide for a motor cycle and a "mounted cop" and this prosperous city be unable to protect its citizens is a problem in finance which most Washington people believe should be solved.

Cities everywhere are making a determined attempt to break up the dangerous practice of speeding and, praise be, they are making very appreciable progress.

Wholesale arrests are made and heavy fines are imposed. Both are necessary. Those who will not care for their own safety and the safety of others must be brought up with a jerk no matter how unpleasant the discharge of duty may be.

Officials charged with the enforcement of the law and the preservation of the people from death or injury either self inflicted or by the wilful or careless act of another, should be granted every necessary facility and then held to strict account for results.

Right now Washington seems to be suffering the effects of "unpreparedness" in some quarter and people are much more interested in the consequences than they are in the cause.

Farming Means Hard Work

We have heard a great deal during the last decade about farming being a profession and no longer a calling requiring only hard work.

That's all true. The farmers of the United States have made wonderful advance in the science of farming. The soil has been scientifically analyzed with a view to determining to what crop it is best adapted. Plant life has been studied, remarkable experiments, crop rotation, building and maintaining the fertility of the soil and scores of other problems have commanded the attention of the farmers and scientists of the land.

Researches and exchange of ideas have worked wonders in the work of farming. Men are able to get far better results now with less physical exertion than they formerly did.

That's because they know now what to do and what not to do and why this, that or the other is necessary.

A prominent Fayette county farmer, a few days ago—a man who has made a conspicuous success of his calling—acknowledging the great progress made and being made by farmers ventured to suggest, however, that all the progress made had not yet succeeded in doing away with hard work on the farm and many failures in crops may be attributed to the mistaken idea, held by some, that hard work is no longer necessary on the farm.

Very correctly, this successful farmer pointed out, that the farmers knowledge now days enabled him to properly direct his energies and do his work where it would bring results. The advance made—the conversion of farming into a profession, if you please—had merely done away with useless toil.

Successful farming requires, now days, its full quota of hard work just as it always did and just as every business does. No business can be successfully conducted without hard work and farming is no exception.

Food Problem in Summer

The problem of what to eat and what to drink is always a stern one.

This time of year, however, if the weather is seasonable, and it is, the problem is not so much one of cost as it is to get something for the table which appeals to the appetite and is not injurious to health.

Very few people can boast that they possess a good appetite this kind of weather. Hot foods and especially hot meats do not appeal.

This kind of weather people want vegetables and green things on the table and that's the kind of food which is best for the health, too.

Nature has a way of changing the appetite to meet weather conditions, to bring on a craving for foods best for the system.

Care should be taken, however, to keep the appetite, seasonable as it is, under control. Too much of the ices, cold water, ice tea and the like are not best.

Care should be taken not to go to extremes in eating cold foods and drinking cold liquids. There is not enough of the strengthening properties in that diet and frequently, in even the hottest weather, it is better to take some of the warm substantial foods and some hot tea or hot coffee. Even if the immediate effect is not pleasant the after effects will compensate for the effort. There must be enough of the heavier, warmer foods and drinks to enable the system to withstand the strain of the debilitating weather conditions.

Poetry For Today

IRRESISTIBLE.

The callin' of the country comes across the fields o' morn. The mornin' winds are sighin' and the skies are clean and blue, And the spirit of the harvest comes a-rustin' through the corn, And the fieldlark's song is sweeter than the fieldlark's song I knew And I know the trees are bendin' in the breezes from the south, And I know the grass is runnin' in green billows as they blow, And the rosebud is as poutin' as a little sweetheart's mouth, And the callin' of the country's coaxin' me to rise and go.

There's a river road a-windin' underneath far apple boughs, There are honey bees bazoomin' round the blooms beside the way There's the bleatin' of the sheep and there's the lowin' of the cows, And the locust's cheery shrillin' comes across the summer day; Then the river road goes windin' zigzag up a distant hill, Till it reaches the far summit, like a ribbon 'gainst the sky; And it seems if I could climb it to the end of it, I'd spill My soul into the gladness of the happy days gone by.

And it's thus the breezes call me, and I see the buttercup Sort of bend and sort of beckon to the fields of long ago; And I see the country highway go across the bridge and up, Till it looks down on the valley and the home I used to know; And the road is hesitatin' underneath the shady boughs, And the grass is like green billows in the summer winds that blow And I hear the river's voice and I can hear the lowing cows, And the spirit of the summer calls and calls and I must go. —Houston Post.

FEARING SECOND EXPLOSION

Experts at Cleveland Stop Further Rescue Work.

GAS POURING INTO TUNNEL

Bodies of Eleven Men Entombed in the Waterworks Tunnel May Not Be Recovered For a Week—Now Believed Explosion Monday Tapped Gas Well in the Bed of the Lake. State Probe Ordered.

Cleveland, July 27.—Gas continues to pour into the waterworks tunnel under Lake Erie and there is great danger of a second explosion wrecking the tunnel and the outer crib.

The bodies of the eleven men entombed in the tunnel may not be recovered for a week.

L. M. Jones, federal mine expert, and a party made six trips into the tunnel and declared that the deadly gas is so thick in the tunnel that further rescue work should not be attempted until the flow is stopped. It is believed that the gas explosion of Monday night, which trapped the tunnel workers and took a toll of twenty-one lives, opened up a gas well in the bed of the lake.

Forty men quit work at Crib No. 5 and 100 left Crib No. 4, as a result of the report of the investigation, it being feared that gas from the outer crib tunnel has seeped through into the part of the tunnel extending from Crib No. 4. As a precaution against explosion, the electrical power has been turned off.

Gustav C. Van Duzen, superintendent of waterworks construction, who is recovering from the effects of his trip with a rescue party into the tunnel, declared in a statement that the electrical equipment in the Crib No. 5 section of the tunnel was responsible for the first explosion.

An investigation of the tunnel explosion will be conducted by the state. This was determined by the industrial commission, whose mining and factory inspection bureaus were instructed to proceed with the inquiry at once. Federal, municipal and county officials also have probes under way.

RUPERT HUGHES

Rupert Hughes, who, with his wife, wrote "Gloria's Romance," the new serial about to appear in these columns, is a profound scholar and a dramatist of large success. He was born at Lancaster, Mo., a small town. He has the master of arts degree from Western Reserve university and from Yale. His earlier books covered musical subjects, and for a time Mr. Hughes was on the editorial staff of the Encyclopedia Britannica. He was for several years connected in an editorial capacity with some of the most prominent periodicals in this country. He has written eighteen books and twelve of his plays have been produced. Many of his stories have appeared in the Saturday Evening Post, Cosmopolitan Magazine and the Red Book. Among his well-known stories are "What Will People Say?" "Clipped Wings," "The Thirteenth Commandment," but Mr. Hughes himself declares that "Gloria's Romance" is the best of them all.

BIG AUDIENCE IS DELIGHTED

Grand Opera Scenes Presented By San Carlo Company Proves Biggest Musical Event Ever Given in City—Company Pleased With Reception Accorded.

It is over. And never before has greater success crowned an achievement in this city than that which marked each day of the big Chautauqua which came to a close Wednesday night with the great San Carlo Grand Opera Company as a fitting climax to the many pleasing, entertaining and highly instructive features of the assembly, which had come before.

Wednesday afternoon the Junior Chautauquans gave an entertainment which was greatly enjoyed and they were followed by the Angelini Orchestra, with two of the San Carlo singers, forming a thoroughly pleasing entertainment.

At night by far the largest crowd of the entire chautauqua assembled at the mammoth tent, many being unable to get under the tent, and it was a highly appreciative audience which sat throughout the entire performance and drank in each number of the greatest musical program of its kind that ever appeared in this city, and the greatest Grand Opera company in chautauqua.

No part of the performance was light, and the magnificent company presented scenes from the heavier operas and were rewarded with storms of applause. Signor Ugo Barducci and his splendid orchestra opened the program with the overture from "Barber of Seville," faultlessly rendered.

The first scene was "The Troubadour," from "Il Trovatore," by Verdi, and with each character a strong one. The wardrobes were gorgeous and each character fitted perfectly. In the cast Mme. Alice Eversman, who possesses a magnificent soprano voice and who is to appear with Caruso next season, appeared as Leonora; Mme. Stelle De Mette as Inez; Sig. Giuseppe Agostini as Manrico, and Sig. Alessandro Modesti as the Count Di Luna.

Then in order were presented scenes from act four of "Il Trovatore," scene from "Carmen," scene from "Rigoletto," scene from "Cavalleria Rusticana," the singing of the Prolouge from "I Pagliacci," by Signor Angelo Antolo. But the climax was reached with the presentation of scenes from "Lucia di Lammermoor," in which the entire company took part, and the big audience sat breathless until the last note had died away. In the final scene Mlle. Edvige Vaccari appeared as Lucy, and her high soprano voice and the voice of Sig. Giuseppe Agostini, as Sir Edgar, showed remarkable range and expression.

All lovers of Grand Opera and good music were thoroughly delighted with every phase of the great entertainment, including the superb work of the orchestra. While the audience appreciated the work of the company it may be of interest to those present to know that the San Carlo Company appreciated the reception given their performance, and not since they have been in chautauqua have they received a greater ovation than that given them by the audience in this city.

The appearance of the company in this city has awakened a still greater desire for more of the higher class of entertainment.

Funeral announcement later.

NO CHAUTAUQUA UNLESS TICKETS ARE SUBSCRIBED

Guarantee Not Yet Sufficient and Those Who Have Not Pledged Support for Next Year May Yet Do So—Big Numbers Available for Next Year.

Supt. of the Colt-Alber Chautauqua, Chas. Pilkington, left the city Thursday without carrying with him a signed contract for a chautauqua next year, and unless more tickets are pledged within the next few days, no contract will be made. The entire matter now rests with those who have not yet pledged to take tickets if they are here next season.

The big success of the chautauqua just closed is expected to result in enough tickets being pledged providing every man, and woman and child notifies, without delay either Supt. McClain or Harry Rodecker, of the number of tickets desired next season.

It was expected that enough tickets would be pledged at the final session, but this number failed to appear, and the committee is lacking a considerable number.

The benefits to be derived from a chautauqua are now too well known to repeat, and those expecting to enjoy the benefits next year, must act and act quickly, for unless the number of tickets is attained by next week, no contract will be signed.

Next years chautauqua offerings include a number of attractions which in every way equal some of the big ones of the course this year.

Next year we are offered Harry Lauder and The Russian Symphony Company by the Chautauqua managers.

AGED MAN TELLS A LURID STORY

A man apparently 70 or more years of age appeared at the Mayor's office, Thursday morning and asked for relief from keeping two grandchildren, about 8 and 10 years of age, stating that the father of the two children was making sufficient funds to aid in giving the children a home, and that he himself no longer felt that he could supply himself and the two children with ordinary necessities of life.

He stated that the man had married his daughter several years ago, and that while the two children were still young the mother died, and the children were placed in his hands for keeping.

Since the death of the mother, according to the aged man's story, the father married a colored woman in Chillicothe and now resides in this city.

The man was to appear Thursday afternoon and file an affidavit against the father for non-support.

Band Concert Friday night.

HOTTEST DAY OF THE YEAR

At one o'clock Thursday afternoon the government thermometers registered 100 degrees, and other thermometers more exposed swept entirely over the 100 mark and soared still higher.

Owing to the little amount of air, Thursday was pronounced the hottest day of the season, while Wednesday night was probably the hottest night of the season, the mercury registering 75 degrees at midnight, and dropping only five degrees by morning, and then starting once more on the upward course. These last figures are from the Gosard self-registering thermometer.

According to the weather man no relief is in sight, hot weather being predicted for Friday.

MEMOIR.

Elbert Robison, son of Humphrey and Catherine Robison, was born at New Market, Highland Co., Ohio July 7, 1889. When only a small child, his parents moved to Washington C. H., where he spent the greater part of his life. During the last nine years, he resided in Springfield, O.

When a young man, under the ministry of Rev. Austin Hunter, he united with the Christian church of this city.

Several weeks ago he went to Columbus, to work. While engaged in the erection of a building in that city on the 19th of July, the scaffold gave way on which he was standing and he fell to the concrete floor, a distance of about 25 feet, alighting on his shoulders. A number of bones were broken and his body severely bruised. He was taken to the Mt. Carmel hospital immediately, but it was found upon examination, that his injuries were of such a character that recovery was absolutely impossible. He lived for about a day after the accident and passed away July 20, 1916, aged 36 years and 14 days.

He is survived by his mother, Catherine Robison of Springfield, one brother, William Robison of Washington C. H., two sisters, Mrs. Earnest Beuler of Washington C. H., and Mrs. Attie McArthur of Springfield, O.

He was the support of his widowed mother, and faithfully looked after her needs and cheered her in her declining years.

In manner he was quiet and unassuming, but always ready to lend a helping hand to those in need. One of his friends said, "he would give away his last cent to help some one in need." In his quiet way he made a host of friends everywhere he went.

"A precious one from us is gone, A loving voice is still; A place is vacant in our home, Which never can be filled."

CARD OF THANKS.

We wish to extend to the neighbors and friends, our deep appreciation for the many kindnesses shown during the recent death of our beloved son and brother, Elbert Robison.

We especially thank the members of the D. of P. and D. of A., and the Improved Order of Redmen, and others for the beautiful flowers.

To the members of Jr. O. U. A. M. of Springfield who so kindly assisted in the funeral services we are truly grateful, and to E. Snider and Son and fellow workmen of Columbus we extend our heart felt thanks for the beautiful flowers.

For the beautiful flowers and to thank also Rev. Groves for his comforting words and those who sang

for the beautiful music rendered. Mrs. Catherine Robison, Mrs. Earnest Beuler, Mrs. Attie McArthur, William Robison

TROOP TRAIN STOPS HERE

While people are wondering whether more troops will be sent to the border for service at that point, troop trains, laden with recruits for the regular army, are still being sent to the border, and the second such train to pass through this city this week was handled by the B. & O. Thursday morning as second section of No. 109, due here at 9:38 a. m.

The train, like one which went through Tuesday, was made up of a baggage car and three tourists sleepers, and carried soldiers from the Columbus Barracks to fill up the lines of companies sent out earlier.

The B. & O. has equipment ready to move other troops out of Columbus on short notice.

Both troop trains stopped here for water and then continued on their way at a rapid rate of speed.

THE TURKS EVACUATE ERZINGAN

Russians Capture Important
Armenian Town.

BRITISH SCORE IN WEST

Capture the Village of Pozieres After Days of Fighting, Together With Two Strong Trenches West of the Town—Russians Claim Success in the Volhynia Sector—Review of Operations.

London, July 27.—The Turks have evacuated Erzincan, in Turkish Armenia, and the Russians are in possession of this important strategic point.

The reports of the evacuation have not mentioned as yet whether the Turks, in their retreat, were able to take away, in the face of the rapid Russian advance, the guns and stores in Erzincan.

In the Volhynia sector, the Russians are keeping up energetically their pressure on the Teutonic allies in the Slonevka river region and also are attacking the Teutons in north Galicia, near Brody. In the Slonevka district, Petrograd says the Teutons are suffering heavy casualties, and that more than 4,000 men, five guns, six machine guns and quantities of munitions have been captured by the Russians.

With the village of Pozieres completely in their hands and having strengthened their position there by the capture of two strong trenches west of the village, the British troops seem to be resting before attempting again to throw their forces against the Germans, who are blocking their advance toward Bapaume.

South of the Somme the French have recorded another success in the taking of a fortified house, with some prisoners, southeast of the village of Estrees. Except in the Champagne, where the artillery on both sides was engaged in somewhat violent actions, little fighting took place on the remainder of the French front.

The Petrograd and Berlin communications are at variance concerning the results of fighting that has taken place near Riga and in the vicinity of Baranovich. Petrograd claims the repulse of an offensive by Field Marshal Von Hindenburg's men near Riga, while Berlin asserts that the Germans penetrated the Russian advanced positions there and destroyed them.

Likewise Petrograd claims a slight gain for the Russians near Baranovich, while Berlin declares that strong Russian attacks in this vicinity were put down with heavy casualties.

The German admiralty asserts that a German submarine twice torpedoed a British dreadnought off the Orkney islands, Scotland, July 20, but the British admiralty says the vessel attacked was a small auxiliary and that it was not hit.

VICIOUS HOLD UP

(By American Press)

Indianapolis, July 27.—After two automobile bandits assaulted Harvey D. Tilman, cashier of the East Tenth Street State bank, rendering him unconscious, they stole \$2,000 and escaped.

The bandits, both apparently about nineteen years old, entered the bank, said Tilman, while he was alone. One pointed a pistol at him and ordered him to throw up his hands. "You're joking," said Tilman. "Think I am?" asked the gunman, and he fired a shot that barely missed the cashier's head.

At the same time the second robber broke open the door of the cage and struck Tilman over the head, falling him to the floor.

After locking Tilman in a closet, the robbers gathered in all the loose change in sight. The robbers drove away in an old model Ford machine, having no license tag, but bearing a card stating "license applied for."

SOLVING IT

(By American Press)

Dayton, O., July 27.—Plans for the construction of a home for the Dayton leper and his family have been completed by the building inspector and the city commission was asked to appropriate the sum of \$4,000 for use in the construction of the building. The building will be so constructed that the wife and child can communicate with the leper without coming in actual contact with him. A sum of \$500 will also be set aside for the maintenance of the family.

WARSHIPS ON GUARD

Ordered to Neutrality Duty Off the Virginia Capes.

Washington, July 27.—Aroused by an official report from the commander of the battleship Louisiana that a mysterious ship, purporting to be a British cruiser, had passed into the mouth of the Chesapeake bay, the navy department ordered the armored cruiser North Carolina and three destroyers to neutrality duty off Cape Henry.

Officials maintained unusual secrecy regarding the matter and would not disclose just what instructions were sent to the commander of the North Carolina. It was assumed, however, that he had been directed to see that the German merchant submarine Deutschland, now preparing for her return trip to Germany, is not attacked by allied war vessels within the three-mile limit and that American neutrality is not otherwise violated.

Unofficially navy officers agreed that if the ship sighted from the Louisiana was a British cruiser, the commander of the vessel had been guilty of a breach of naval practice and had violated navigation laws in cruising within American territorial waters without proper lights. While it was conceded that the cruiser was within her rights in entering territorial waters, provided she had observed the rules, it was declared an attempt to run into the bay or a scouting expedition and in disregard of navigation laws would constitute a gross violation of international courtesy.

HIGH UP OFFICIAL INVOLVED

Witness Testifies at New York Graft Inquiry.

WAS FORMER STOOL PIGEON

Keepers of Disorderly Houses and Women of the Street Declare They Were Forced to Pay Tribute—Seven Policemen Already Under Indictment, and More Sensational Revelations Promised by District Attorney.

New York, July 27.—At the investigation being conducted by District Attorney Swann into charges of grafting by members of the police vice squad, a local deputy police commissioner was named by a witness.

Seven policemen already have been indicted on evidence supplied by underworld characters and District Attorney Swann declared he expected even more sensational revelations.

The name of the deputy police commissioner was dragged into the case by Max Turkowitz, known to his intimates as Max Pimple, a former stool pigeon for Detective William J. Enright, indicted commander of the vice squad. Turkowitz made an affidavit that while employed by Enright he collected tribute from keepers of questionable resorts. He was arrested last June on a charge of extortion. A few days later he was visited in jail by Detective David J. Foley, a co-worker with Enright, and also under indictment. In his affidavit, Turkowitz quoted Foley as having said to him: "Enright went down to Commissioner — and asked him if he would be allowed to testify for you as a witness and the commissioner said 'Yes. Do you need some money? No? Well, don't be afraid. We'll get you out. Enright and I will testify for you and we'll have the complainants held for perjury—the deputy commissioner said we could do it.'"

Subsequently, while on his way to court in the custody of detectives, Turkowitz was accosted by Enright and Foley, he asserted in his affidavit. Enright handed him a sum of money and Foley reiterated his pledge of assistance. This incident is said by the district attorney to have led to the investigation now in progress.

Turkowitz pleaded guilty to the extortion charge and was released on a suspended sentence.

Keepers of disorderly houses and women of the streets have declared they were forced to pay under threat of being arrested on a "framed up" charge.

Another source of revenue devised by Enright, the district attorney declared, was a plan to give dances in an East Side hall, under the auspices of a mythical yacht club. Keepers of disorderly resorts and criminals were forced to buy tickets. It is asserted, while other tickets were distributed free among girls employed in department stores. Many of the girls innocently attended the dances. Mr. Swann has been told, and there became the prey of "white slavers."

TWO SPEAK

(By American Press)

Sidney, O., July 27.—At the Shelby County Farm Bureau association picnic here today two senatorial candidates, Myron T. Herrick and John J. Lentz, spoke and interested the farmers. Mr. Herrick elaborated his farm loans project, proposing to give farmers the same advantages in borrowing money that is accorded the ordinary business man. Mr. Lentz presented his plan of a government telegraph system connecting every postoffice in the United States, and providing for messages of thirty words at a nominal charge of 10 cents, thus enabling farmers' mutual telephone companies to be in touch with every citizens of the republic. He also advocated the election of postmasters by the people.

CAMP PERRY IS NOT SUITED

Guardsmen May Not Be Transferred to the Lake.

Columbus, July 27.—Officers at the mobilization camp in Upper Arlington contend that they are still in the dark as to where Ohio troops will be dispatched by the war department. Some Colonel Vollrath of the Eighth being one of them, said "inside indications" are that they will go to the border when equipped.

Major Mearns said that the war department is still uncommunicative. Colonel Duffy, camp quartermaster, stated none of the needed supplies had arrived and no word has been heard as to why they have not. Until equipment is received no troops will move.

It was said that part of the Camp Perry drill ground has been plowed up and is unfit for troop maneuvers. This might cause Colonel Hunter to frown on transferring troops to the lake.

Troops who are rejected because of physical disabilities hereafter will be paid 3½ cents a mile for their return home, General McMaken, camp commander, announced. This is provided by law, he said. Major Shetler of the quartermaster's department admitted that all of the 4,000 men who have been rejected were allowed only 2 cents a mile. They will not be given the additional allowance now, however, it was stated.

Washington, July 27.—The Democratic senators, in caucus, decided to pass the child labor bill at this session, as urged by President Wilson.

OLD STORY

(By American Press)

Columbus, July 27.—The charge of making false entries in a bank book was filed against John W. Bailey, by L. J. Schlaechter, auditor of the Citizens' Trust and Savings bank of this city, where Bailey was until recently employed as a bookkeeper. Bailey is said to be in New Orleans. The alleged false entries in Bailey's books are said to cover a shortage of about \$5,000. The local police understand that Bailey is under surveillance in New Orleans and Chief Carter wired for his arrest. Bailey is married and lived at 21 University Place.

Bailey was placed under arrest at Cincinnati as he stepped from a train that carried him from New Orleans.

FIRST EPISODE

Lost in the Everglades.

"Rather remarkable, isn't it," said the sick old lion, Judge Freeman, "that the most expensive hotel and the most luxurious resort in the world should be only a few miles from an almost impenetrable wilderness inhabited by Indians that the United States army could never dislodge?"

"Yes, it is odd," said his young doctor; "but the prices here are almost as impenetrable as the knife grass of the everglades. And as for Indians, the United States navy couldn't dislodge some of these old millionaire squaws from their snobbishness."

"I'm afraid my daughter finds it so," the judge agreed. "Here we've been for two whole weeks and Lois doesn't know anybody who is anybody—except Pierpont Stafford's boy, and I'm afraid he's only flirting with her."

Doctor Royce had not been engaged to prescribe for Miss Lois Freeman's ambitions, so he changed the subject. "It's hard to believe that there is a blizzard in New York today when you look at these flowers and see those half-dressed mobs wallowing in the surf."

The judge gave a jump and gasped: "Good Lord, hear that scream! Some woman is being murdered."

Royce checked him with a gesture and a smile. "Sit still, judge; it's only Gloria Stafford having another battle with her governess."

The judge settled back into his blanket, grumbling: "The little devil—always in hot water."

Doctor Royce came to her defense with a curious warmth. "They're driving her with too tight a rein. She's too big hearted and brave and wise to be treated as a child much longer."

The old man sighed: "We fathers with motherless girls to raise are pretty helpless cattle. I can send a criminal to the chair, but I can't punish my daughter; she does what she pleases, and it rarely pleases me. And Pierpont Stafford can run a string of banks and make a railroad system eat out of his hand, but that girl of his has him—I believe they say 'buffaloed'—or is it 'Pittsburghed'? Isn't that Pierpont out there in the surf now? I wish I could go in. Do you think I might?"

The doctor shook his head: "You run out on the links and play a little golf among the palm trees. Tomorrow I may let you have a dip."

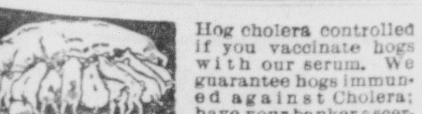

"I don't feel quite up to golf," "Go on; don't disobey. You're worse than—that—" Another scream from the corridor gave him the missing word. "You're worse than Gloria."

He lifted the judge from his chair, thrust a bag of golf clubs into his

OWL CAR FOR LOVERS.

Traction Magnate Out West Will Make New Arrangements.

Cleveland, O.—That all the world still loves a lover is to be demonstrated by Joseph Jordan of Willoughby, vice president and general manager of the Cleveland, Painesville and Eastern railroad. "And I'm going to see that every one of them gets a square deal if my influence counts for anything," he said. Mr. Jordan learned that young men who go to see their "best girls" in Lake county and take the last car back to Cleveland at night must wait three-quarters of an hour for a city car at the East Cleveland "Y" after midnight before they can continue their journey. "I shall take the matter up with John Stanley of the Cleveland Railroad company and arrange with him to have a city car wait for the last interurban car," Mr. Jordan said.

NEW HOLLAND PICNIC DRAWS GREAT CROWDS

Annual Event in Kirkwood Park Today Said to Eclipse All Previous Picnics—Tip-top Entertainment and Contests Galore—Attendance Reaches Into the Thousands.

The annual Home Coming, Field Day and Picnic held Thursday in Kirkwood grove near New Holland, under the auspices of the Knights of Pythias and Modern Woodmen lodges, with Messrs. J. T. Timmons, Clark Bryan and Wm. Mitchell the committee in charge, is one of the biggest, if not the greatest event ever engineered by the two lodges, and thousands of persons from all over the surrounding territory flocked to the grove to spend the day, a large number taking their dinners and spreading them beneath the giant oaks at the noon hour for a real old-fashioned picnic dinner.

The big grounds resembled a small fair, with many tented attractions, including merry-go-round, lemonade and ice cream stands, shows of various kinds, and in fact everything to insure pleasurable entertainment to all who could not find it otherwise.

The usual coal show, field events, mule races and what-not attracted their share of attention.

Automobile parties by the hundreds flocked to the grounds, and the only complaint was because of the intense heat, which made the abundance of shade and the ice cold refreshments much sought after. Many brought their suppers to remain until dark.

So well had the committee planned that there was no friction in any part of the big event. A balloon ascension at six o'clock was announced for the grand finale of the biggest picnic New Holland ever gave.

Horse's Legs Broken.

A horse driven by Earl Marshall and owned by Chas. Kirk, suffered two broken legs when it was struck by an automobile while on the way from New Holland to the grounds. The autoist's number was obtained. It will be necessary to kill the horse.

BAND CONCERT FRIDAY NIGHT

The second of a series of open air band concerts will be given on the court house lawn Friday evening, beginning at eight o'clock, and as usual the public is invited and urged to attend.

The program presented will be entirely different from that of the last concert, and includes new and high class numbers.

CHARGED WITH CONSPIRACY

By Associated Press Dispatch. Newark, N. J., July 27. — Warrants for the arrest of Edward H. Hatch, vice president of the Mutual Trust Company, of Orange, N. J., closed Monday by the State Banking Commission, and for Thomas F. Byrnes, secretary and treasurer of the institution, were issued here today.

They are charged with conspiracy to defraud the bank out of \$396,000. The bank was closed after an examination of its accounts by state banking officials, but no explanation for the action was made at the time.

The institution is one of the largest of its kind in northern New Jersey, with deposits totalling nearly \$1,500,000.

SITTING TO HEAR CASEMENT PLEA

(Associated Press Cable)

London, July 27.—The London Agency says that a public execution of Roger Casement is highly improbable, and that, in the absence of special instructions from the Government, arrangements to hold it in privacy at the Pentonville prison, August 3, will be proceeded with.

London, July 27. — Justice Darling announced today that the five judges who heard the appeal of Roger Casement against the sentence of death on the charge of high treason in connection with the Dublin revolt, would sit tomorrow to "hear a possible application on behalf of the convict."

The nature of the application was not disclosed.

SUSPECT HELD FOR BOMB CRIME

San Francisco, July 27. — With the arrest of Warren K. Billings, a shoe cutter, aged 32, the police asserted today that they were confident that their net soon will be closed on a "ring of five," of whom Billings is alleged to be a member, who are alleged to have perpetrated the bomb explosion during the preparedness parade of last Saturday.

CAR STRIKE MAY SPREAD

New York, July 27. — Intention to extend the street car strike to all lines in New York city, including surface and elevated, was announced today after a meeting of the general executive board of the Amalgamated Association of Street and Electric Railway Employees of America.

OUTBREAK OF STRIKERS

Brick and Other Missiles Are Hurlled By Striking New York Car Men.

New York, July 27.—The first serious outbreak in the strike of street car men in the Bronx and Westchester County occurred shortly after noon today, when a mob of several hundred strikers and sympathizers attacked a car in the Bronx.

Bricks were hurled at the car, and it is reported several persons were hurt. Police reserves and ambulances were summoned.

On the arrival here of W. D. Mahon, president of the Amalgamated Association of Street and Electric Railway Employees of America, the motormen and conductors of all the street railways in the city may be asked to join the strike.

Not a car moved in Yonkers today. Mt. Vernon and New Rochelle were also without car service.

Police inspectors announce that, in anticipation of trouble, more than 600 reserves were being held in readiness.

During the forenoon there were clashes between strikers and car men.

"PAY CALL" FOR OHIO BOYS

Camp Willis, July 27.—The call for which Ohio's national guardsmen have waited long was sounded today. It wasn't the call to arms, but it was the pay call.

It was the first money the men have received from the federal government since they mobilized following the order of President Wilson.

Most of them received \$6. Aside from pay day, the camp was still in a dull routine.

MR. GRINNELL'S UGLY CHARGES

London, July 27. — Laurence Grinnell, Nationalist, whose opposition to the Government has grown aggressive since the Irish insurrection last Easter, and who, in questions to the Cabinet ministers, makes the most serious charges against the Government, caused a short suspension of the sittings in the House of Commons, owing to his refusal to withdraw when ordered to do so by the Speaker of the House.

SLIGHT DECREASE IN DEATH LISTS

New York, July 27.—Only a slight decrease in the epidemic of infantile paralysis was noted today in the health department's report for the 24 hours ending at 10 a. m.

During that period, there were 31 deaths and 151 new cases.

More than 700 children now have been killed by the plague since its inception, on June 26, and there have been more than 3,000 cases reported.

KILLS WIFE THEN SUICIDES

Norfolk, Va., July 27. — Just a few hours after Z. E. Keister, prominent real estate operator, died today from a bullet wound he inflicted last Thursday, after the charred body of his wife had been found in the ruins of their home here, a coroner's jury met to inquire into the woman's death and found that Mrs. Keister met death at the hands of her husband.

The police, proceeding on the theory that Mrs. Keister was murdered before the fire started, had spent a week investigating the case.

GOT THE "GUN"

Thursday afternoon a man tipped off Chief Moore that a man would be found on the court house lawn who had an ugly piece of mountain artillery protruding from his hip pocket.

Being busy at the time he dispatched Patrolman Judy to pinch the man and obtain the gun.

Patrolman Judy hurried forth, saw the man, ditto the gun, and pounced upon 'em. He obtained possession of the gun and suddenly became dizzy when he discovered it was glass, but a perfectionist of a pistol of heavy caliber.
